### Eyesight

Is of such great value that one ought to  
take more than ordinary precautions to  
guard against every possible trouble.

If you have even a remote suspicion  
that there is any trouble with your eyes it  
will be for your own best interests to have  
your vision tested and trouble, if any, re-  
moved.

Very simple troubles may develop  
serious results if not properly treated.

Ordinary failing eyesight receives our  
most careful attention, both as to glasses  
and frames.

It's just as important to have the  
right frame as the right glass, and from  
our large stock we can give you the cor-  
rect thing in either Gold, Silver or Steel.

We make no charge for examinations,  
and if yours is a case requiring the ser-  
vices of an oculist we will frankly tell  
you so.

### \$100 Reward—\$100.

The reader of this paper will be pleased to  
learn that there is at least one dreaded disease  
that science has been able to cure in all its  
stages, and that is Catarrh. Hall's Catarrh  
Cure is the only positive cure known to the  
medical fraternity. Catarrh being a constitu-  
tional disease, requires a constitutional treat-  
ment. Hall's Catarrh Cure is taken inter-  
nally, acting directly on the blood and mucous  
surfaces of the system, thereby destroying the  
foundation of the disease, and giving the pa-  
tient strength by building up the constitution  
and assisting nature in doing its work. The  
proprietors have so much faith in its curative  
powers that they offer One Hundred Dollars  
for any case that it fails to cure. Send for list  
of testimonials. Address,  
F. J. CHERRY & Co., Toledo, O.

Sold by druggists, 25 cents.

### SINGING TO ROYALTY.

Miss Margaret Reid Kackley Meeting With  
Much Success in Europe.

The many friends in this city of Miss  
Margaret Reid Kackley will always learn  
with pleasure of the splendid success  
with which this gifted singer is meeting  
in her tour of Europe.

Wherever she has sung she has been  
congratulated on her superb voice, and  
royalty of Europe has shown her much  
attention.

She recently sang at a special per-  
formance given in honor of the Prince and  
Princess of Wales, and after the per-  
formance she was sent for by the Prince  
and Princess and very highly complimented.

Miss Kackley has just finished a season  
at Cannes, and has been engaged for the  
next season of opera at Covent Garden,  
London, which begins in May.

Miss Kackley delighted at Maysville  
audience at the Washington Opera house  
several years ago, and still retains a warm

WE'RE FOR AMERICANS!

The man who would expect to gather roasting ears the next day after planting his corn is no more unreasonable than those who expect to see returned property before the tariff bill is passed.

The Southern Democrats who are now favoring Protection must have been reading the remarks of JOHN C. CALHOUN on the tariff of 1816, when he said: "When our manufactures are grown to a certain perfection, as they will be under the fostering care of the Government, . . . the farmer will find a ready market for his surplus products and a certain and cheap supply for all his wants; property will diffuse itself through all the country."

WEEKLY CROP REPORT!

PROSPECTS THROUGHOUT THE STATE OF KENTUCKY.

Weather conditions for the past week have been the most favorable of the present season for all farming interests. The opening days of the week were characterized by very cool weather, many stations reporting temperatures from 57° to 58° below the freezing point on the morning of the 29th.

Don't Tobacco Smoke Your Life Away. To quit tobacco easily and forever, be sure to get of life, nerve and vigor, take No-Tobacco. . .

This section received considerably more rain and slightly less sunshine than other sections of the state. Vegetation of all kinds has made marked advancement and farm work is being pushed to the utmost.

has been planted. Considerable complaint is made that the land plowed before and during the heavy rains has hardened and become difficult to plant. The sowing of oats was practically completed this week, and farmers generally speak discouragingly of the prospects for the crop.

Central Section.  
The week in most respects an admirable one, though vegetation and farm work are slightly less forward than in the Western section. Plowing for corn has made much progress and some planting has been done.

Eastern Section.  
Vegetation is not generally so far forward in this section of the State, but it has improved greatly since last week. Plowing for corn and planting have made considerable progress during the week.
